

NEWS RELEASE – August 31, 2020

SME to Host Health & Safety Certification Review Course

The Industry's Leading Health & Safety Certification

The Society for Mining, Metallurgy & Exploration (SME) will be conducting a three-day Certified Mine Safety Professional (CMSP) Review Course September 17-19, 2020 at its headquarters in Denver, CO.

This high-level review course will aid individuals in preparing for the CMSP Examinations which will be held at a later date. The CMSP Review Course will be available for an in-person event or virtual experience. The in-person course will have the appropriate social distancing and personal safety practices. SME will adhere to local government regulations and some instructors may present from a distance.

The Review Course will cover the five primary domains of the CMSP Body of Knowledge, including:

- Fundamental Knowledge of Science & Engineering
- Leadership, Organization & Culture
- Safety, Health & Risk Management
- Management Systems, Regulations & Assurance
- Professional Skills, Conduct & Ethics

Both the review course and the examination are administered by the International Academy of Mine Safety & Health Professionals (IAMSH) of SME. The CMSP credential is the industry's leading health and safety certification and indicates that the recipient has the experience and knowledge of both domestic and international safety and health practices.

For examination dates and more information on the review course, visit www.smecmsp.org

SME is a professional society (nonprofit 501(c)(3) corporation) whose members represent all professions serving the mining, minerals and underground construction industries in more than 100 countries. SME members include engineers, geologists, metallurgists, educators, students and researchers. SME advances the worldwide minerals community through information exchange and professional development. For more information on SME, contact Jackie Dorr, Communications Manager, dorr@smenet.org.

SME exists to be the premier resource and advocate for the mining community.
