NEWS RELEASE – July 9, 2020

SME Hosts Mining/Mineral Processing Licensure Review Course

Engineers will prepare for the October 2020 P.E. Exam

The Society for Mining, Metallurgy & Exploration Inc. (SME) will host the Professional Engineer Exam Review Course September 12-16, at the Sheraton Denver Downtown Hotel. The review course provides an overall assessment of the subjects that will be covered in the licensure exam in October 2020.

The review course is a 5-day class covering each of the examination subject topics, terminology, concepts and also provides a multitude of information and sources for executing the licensure exam. College professors from Pennsylvania State University, University of British Columbia, West Virginia University and Colorado School of Mines will teach this mining/mineral processing professional engineer review course. Subject topics are:

- Exploration
- Mine Planning and Operations
- Environmental and Reclamation
- Mineral Processing

The SME P.E. Review Course will be an in-person event with appropriate social distancing and personal safety practices. SME will adhere to local government regulations and some instructors may present from a distance. Applicants are encouraged to register early to ensure a spot in the course, as capacity may be determined by social distancing. For more information visit www.smepereviewcourse.com.

SME is a professional society (nonprofit 501(c)(3) corporation) whose members represent all professions serving the mining, minerals and underground construction industries in more than 100 countries. SME members include engineers, geologists, metallurgists, educators, students and researchers. SME advances the worldwide minerals community through information exchange and professional development. For more information on SME, contact Jackie Dorr, dorr@smenet.org.

SME exists to be the premier resource and advocate for the mining community.
