

Upper Peninsula Section - SME Fall 2017 Meeting -November 09, 2017

Ramada Inn Hancock, 99 Navy St, Hancock, MI 49930

9:30 - 9:45Opening Statements9:45 - 10:15Back Forty Project Update, Jeff Lynott, Aquila Resources10:15 - 10:45Human-Centered Monitoring for Workload and Fatigue Detection, Ye Sun, Mechanical Engineering Dept., Michigan Tech10:45 - 11:00Coffee Break11:00 - 11:30Highland Copper Project Updates, Joe Strapko, Highland Copper11:30 - 12:00Fiber Reinforced Polymer Rebar: Benefits and Uses, Eric Kiilunen, Neuvokas12:00 - 12:30Grade and volume uncertainty analysis for a copper deposit using multiple point geostatistics and sequential Gaussian situation, Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 - 1:15Lunch1:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites Nathan Manser, Engineering Fundamentals, Michigan Tech	8:30 - 9:30	Registration – Continent Breakfast
9:45 - 10:15Back Forty Project Update, Jeff Lynott, Aquila Resources10:15 - 10:45Human-Centered Monitoring for Workload and Fatigue Detection, Ye Sun, Mechanical Engineering Dept., Michigan Tech10:45 - 11:00Coffee Break11:00 - 11:30Highland Copper Project Updates, Joe Strapko, Highland Copper11:30 - 12:00Fiber Reinforced Polymer Rebar: Benefits and Uses, Eric Killunen, Neuvokas12:00 - 12:30Grade and volume uncertainty analysis for a copper deposit using multiple point geostatistics and sequential Gaussian situation, Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 - 1:15Lunch1:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	9:30 - 9:45	On online Statements
Jeff Lynott, Aquila Resources10:15 - 10:45Human-Centered Monitoring for Workload and Fatigue Detection, Ye Sun, Mechanical Engineering Dept., Michigan Tech10:45 - 11:00Coffee Break11:00 - 11:30Highland Copper Project Updates, Joe Strapko, Highland Copper11:30 - 12:00Fiber Reinforced Polymer Rebar: Benefits and Uses, Eric Killunen, Neuvokas12:00 - 12:30Grade and volume uncertainty analysis for a copper deposit using multiple point geostatistics and sequential Gaussian situation, Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 - 1:15Lunch1:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	5.00 5.10	
10:15 - 10:45Human-Centered Monitoring for Workload and Fatigue Detection, Ye Sun, Mechanical Engineering Dept., Michigan Tech10:45 - 11:00Coffee Break11:00 - 11:30Highland Copper Project Updates, Joe Strapko, Highland Copper11:30 - 12:00Fiber Reinforced Polymer Rebar: Benefits and Uses, Eric Kiilunen, Neuvokas12:00 - 12:30Grade and volume uncertainty analysis for a copper deposit using multiple point geostatistics and sequential Gaussian situation, Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 - 1:15Lunch1:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	9:45 – 10:15	
10:10Ye Sun, Mechanical Engineering Dept., Michigan Tech10:45 - 11:00Coffee Break11:00 - 11:30Highland Copper Project Updates, Joe Strapko, Highland Copper11:30 - 12:00Fiber Reinforced Polymer Rebar: Benefits and Uses, Eric Kiilunen, Neuvokas12:00 - 12:30Grade and volume uncertainty analysis for a copper deposit using multiple point geostatistics and sequential Gaussian situation, Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 - 1:15Lunch1:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites		
10:45 - 11:00Coffee Break11:00 - 11:30Highland Copper Project Updates, Joe Strapko, Highland Copper11:30 - 12:00Fiber Reinforced Polymer Rebar: Benefits and Uses, Eric Kiilunen, Neuvokas12:00 - 12:30Grade and volume uncertainty analysis for a copper deposit using multiple point geostatistics and sequential Gaussian situation, Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 - 1:15Lunch1:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	10:15 – 10:45	
11:00 - 11:30Highland Copper Project Updates, Joe Strapko, Highland Copper11:30 - 12:00Fiber Reinforced Polymer Rebar: Benefits and Uses, Eric Killunen, Neuvokas12:00 - 12:30Grade and volume uncertainty analysis for a copper deposit using multiple point geostatistics and sequential Gaussian situation, Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 - 1:15Lunch1:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	40.45.44.00	
11.00 = 11.30Joe Strapko, Highland Copper11:30 - 12:00Fiber Reinforced Polymer Rebar: Benefits and Uses, Eric Kiilunen, Neuvokas12:00 - 12:30Grade and volume uncertainty analysis for a copper deposit using multiple point geostatistics and sequential Gaussian situation, Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 - 1:15Lunch11:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	10:45 - 11:00	Coffee Break
11:30 - 12:00Fiber Reinforced Polymer Rebar: Benefits and Uses, Eric Kiilunen, Neuvokas12:00 - 12:30Grade and volume uncertainty analysis for a copper deposit using multiple point geostatistics and sequential Gaussian situation, Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 - 1:15Lunch1:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	11:00 - 11:30	
Eric Kiilunen, Neuvokas12:00 - 12:30Grade and volume uncertainty analysis for a copper deposit using multiple point geostatistics and sequential Gaussian situation, Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 - 1:15Lunch1:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites		Joe Strapko, Highland Copper
12:00 - 12:30Grade and volume uncertainty analysis for a copper deposit using multiple point geostatistics and sequential Gaussian situation, Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 - 1:15Lunch1:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	11:30 - 12:00	
geostatistics and sequential Gaussian situation, Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 - 1:15Lunch1:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites		Eric Kiilunen, Neuvokas
Fanteri Aji Dharma Suparno, Geological and Mining Engineering and Science, Michigan Tech12:30 – 1:15Lunch1:15 – 1:45SME Annual Meeting1:45 – 2:15Mine Fund Scholarship Awards2:15 – 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 – 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 – 3:30Coffee Break3:30 – 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	12:00 - 12:30	
Michigan Tech12:30 – 1:15Lunch1:15 – 1:45SME Annual Meeting1:45 – 2:15Mine Fund Scholarship Awards2:15 – 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 – 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 – 3:30Coffee Break3:30 – 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites		
12:30 - 1:15Lunch1:15 - 1:45SME Annual Meeting1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites		
1:45 - 2:15Mine Fund Scholarship Awards2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	12:30 - 1:15	
2:15 - 2:45Michigan Mining in the 21st Century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	1:15 – 1:45	SME Annual Meeting
Disc ListIntellight thing in the List century Emanuel Z. Manos, Detroit Salt Company2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	1:45 – 2:15	Mine Fund Scholarship Awards
2:45 - 3:15Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines. Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology3:15 - 3:30Coffee Break3:30 - 4:00Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	2:15 – 2:45	Michigan Mining in the 21st Century
Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school Mines and Technology 3:15 – 3:30 Coffee Break 3:30 – 4:00 Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites		Emanuel Z. Manos, Detroit Salt Company
Mines and Technology 3:15 - 3:30 Coffee Break 3:30 - 4:00 Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites	2:45 – 3:15	Numerical Modeling of Gas Emissions and Cave Ventilation in Block Caving Mines.
3:15 – 3:30 Coffee Break 3:30 – 4:00 Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites		Purushotham Tukkaraja, Mining Engineering & Management, South Dakota school of
3:30 – 4:00 Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral Processing Sites		
Processing Sites	3:15 – 3:30	Coffee Break
Processing Sites	3:30 - 4:00	Mine Cleanup: a Review of Remediation Technologies for Mining and Mineral
Nathan Manser, Engineering Fundamentals, Michigan Tech		Processing Sites
		Nathan Manser, Engineering Fundamentals, Michigan Tech
4:00 – 4:30 Directional Drilling for Eagle East Discovery	4:00 - 4:30	Directional Drilling for Eagle East Discovery
Cody Suits, Eagle Mine		Cody Suits, Eagle Mine
4:30 – 5:00 SME Michigan Tech Student Chapter Update	4:30 - 5:00	SME Michigan Tech Student Chapter Update
Taylor Pitlik, Undergraduate Student, Michigan Tech		Taylor Pitlik, Undergraduate Student, Michigan Tech
5:00 – 5:15 Closing Remarks	5:00 – 5:15	Closing Remarks
